DETAILED ACTION

The last Office action is hereby withdrawn in view of Applicant's arguments. However, a new ground of rejection is cited herein.

Claims 20-35 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-24, and 1-23 of U.S. Patent No. 6,534,679 and 6,229,046. Although the conflicting claims are not identical, they are not patentably distinct from each other because for the following reasons:

Note that the instant claims 20, 27 are the combination of steps in claims 1, 6 and steps in claim 10 and 11, and claim 27 are the combination of claims 1, 9 in 6,534,679;

Note also that the instant claims are the combination of claims 1-5 and 18 of 6,229,046.

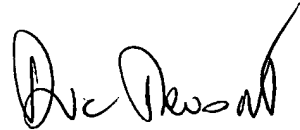

Though the references do not disclose specific steps in the claimed processes, they do disclose in separate claims to form the claimed products, then it would have been obvious to one of ordinary skill in the art to modify or combine the claims of the references to get the claimed products in the absence of a showing of unexpected results derived from said combinations.
